(46) <b>Hybrid sheep</b> ( <i>Ovis sp</i> ) _____	_____	_____
(47) _____ ( _____ ) _____	_____	_____

An OVIS WORLD SLAM® requires 12 different species (subspecies) of world sheep from the above list. #47 is for any wild mountain sheep that is currently protected but may have been hunted legally (such as the Tibetan, Kara Tau and North China argalis and Cyprian mouflon.) #46 (hybrid sheep) does not count for the 12 or Super 20, but may be counted for the Super 30 and Super 40.

If possible, complete a Hunt Report for each sheep taken, and please send field photos. Feel free to make as many copies as necessary. Complete and mail to: **Grand Slam Club/Ovis • P.O. Box 310727 • Birmingham, AL 35231**
